NYS Department of Taxation and Finance
NYS Office of Information Technology Services Swan St Building,
Albany, Ny.

Dear Hiring Manager,

I am writing to express my strong interest in the position within the Office of Information Technology Services - Chief Technology Office - Business Applications - Revenue, Finance, and Integrity Portfolio, as advertised, which involves engaging in a multi-month Java Boot Camp to gain the skills needed for advancement in the DTF Modernization project.

The opportunity to be part of the DTF Modernization is both exciting and inspiring. The commitment to continuous learning and professional development aligns perfectly with my career aspirations. I am confident that my passion for technology and my ability to adapt to new challenges make me a strong candidate for this role.

Throughout my academic and professional journey, I have acquired a solid foundation in Java and related technologies. I am committed to expanding my expertise and embrace the prospect of participating in the Java Boot Camp, understanding that this experience will provide me with invaluable skills essential for the modernization project. I am excited to take on the responsibilities associated with all phases of the System Development Life Cycle, particularly the challenges presented by coding, testing, and maintaining Java/J2EE applications. I am eager to create detailed program design specifications, troubleshoot issues, and effectively communicate with both technical and functional teams.

My experience includes working in dynamic environments where quick adaptation to legislative changes is imperative. I believe my adaptability and analytical skills make me well-suited to address the evolving needs of the DTF Modernization project. Additionally, I am confident that my ability to work collaboratively within a team and communicate effectively will contribute to the project's success.

I am excited by the opportunity to work on a project of such significance, and I am eager to take part in supporting the New York State Taxation and Finance department's goals. The chance to facilitate and participate in meetings, interact with COBOL programs, and engage with a wide range of technologies including C++, C#, GIS, HTML/XHTML, Java, Javascript, Visual C++, Visual C#, XML, and .NET is particularly appealing to me.

I am highly motivated to contribute to this project and the Office of Information Technology Services as a whole. My dedication to continuous learning and my enthusiasm for technology

make me a strong fit for this role. I welcome the opportunity to further discuss how my qualifications align with the needs of the position.

Thank you for considering my application. I look forward to the possibility of joining the team and contributing to the success of the DTF Modernization project.

Sincerely,

Bhanu Cheryala.
